

The wellbeing of our students, their families and our instructors is of paramount importance at Miss Maria's. With the uptick of cases due to the Delta variant, we ask that everyone follow the following requests.

In general, we ask that parents try not to hang out in the lobby when possible. Please wait for your child in your car, outside or leave and come back. We have phone numbers for everyone and can call if needed.

We encourage students to wear a mask while in class, but it is not mandatory for all students.

For parents or guardians who have not had the virus and/or has not been vaccinated, we ask that you please wear a mask while in the lobby or wait in your car during your child's class. Surgical masks have proved to provide much more protection than cloth masks.

We ask that parents that have been vaccinated to please minimize your time in the lobby and/or wait in your car while your child is in class. We understand that some of our younger students want to their parents in the lobby, especially during the first couple weeks of classes. You are welcome to stay in the lobby.

If anyone in your family tests positive for Covid, please call our office to let us know.

Additional good practices:

Wash hands and use the restroom at home before class.

Wash hands or use sanitizer after class.

Social distance while in the lobby.

Don't bring children to class if fever, cough, runny nose. Make up classes are always available.

Bottled water or water bottles are recommended, but the drinking fountains will be open. Please make sure your child brings their water bottle home.

With everyone's help, we can continue to keep all our students safe and healthy.
